**[Docket No. FAA-2017-0953; Airspace Docket No. 17-AEA-15]**

#### **Amendment of Class E Airspace; Massena, NY**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action amends Class E surface airspace and Class E airspace extending upward from 700 feet above the surface at Massena, NY, as the Massena collocated VHF omnidirectional range tactical air navigation system (VORTAC) has been decommissioned, requiring airspace reconfiguration at Massena International-Richards Field Airport. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at the airport. This action also updates the geographic coordinates of this airport.

**DATES:** Effective 0901 UTC, May 24, 2018. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

**SUPPLEMENTARY INFORMATION:**

**Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of

that authority as it amends Class E airspace at Massena International-Richards Field Airport., Massena, NY, to support IFR operations at the airport.

### **History**

The FAA published a notice of proposed rulemaking in the **FEDERAL REGISTER** for Docket No. FAA-2017-0953 (82 FR 57888, December 8, 2017), proposing to amend Class E surface airspace and Class E airspace extending upward from 700 feet or more above the surface at Massena International-Richards Field Airport., Massena, NY.

Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraphs 6002 and 6005, respectively, of FAA Order 7400.11B dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR Part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

### **Availability and Summary of Documents for Incorporation by Reference**

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

## **The Rule**

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E surface airspace and Class E airspace extending upward from 700 feet above the surface at Massena International-Richards Field Airport, Massena, NY. The segment within 1.8 miles each side of the Massena VORTAC 286° radial extending from the 4-mile radius to the VORTAC is removed in Class E surface airspace; and the segment within 2.7 miles each side of the Massena VORTAC 106° radial extending from the 7.4-mile radius to 7 miles east of the VORTAC is removed in Class E airspace extending upward from 700 feet above the surface, due to the decommissioning of the Massena VORTAC, and cancelation of associated approaches. This action enhances the safety and management of IFR operations at the airport.

The geographic coordinates of the airport are adjusted to coincide with the FAA's aeronautical database.

## **Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified

that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### **Environmental Review**

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
